

Workshops Include

Nurturing Neurodiversity:

- The broad concept of neurodiversity.
- An overview of certain wiring differences sitting under the neurodiversity 'umbrella'.
- Common myths and misconceptions, helpful considerations and approaches.

Neurodiversity in the Workplace:

- An introduction to strengths and challenges associated with neurodiverse brains.
- Reflections on one's own strengths and challenges.
- The impact of working in diverse teams.
- The landscape of neuro-inclusion: systemic changes and some common adjustments.
- Neurodiversity sits in the eyes of the Equality Act & support through Access to Work.

Appreciating Autism:

- Common autistic processing differences, strengths and needs.
- Autism: what it is and what it isn't.
- Considerations for supporting and promoting accessibility for staff and/or clients.

Content

WayMakers workshops cater to the individual needs of an organisation, so we content is typically agreed after meeting with key stakeholders to discuss the main objectives of the training.

Numbers

Workshops are most impactful when they combine content delivery with a safe space for interaction and the opportunity to share personal insights around neurodiversity.

For this reason, numbers are ideally capped at 15 in order to protect a psychologically safe space, enabling people to exchange personal experiences and ask questions.

Fees

Please contact us for rates:

2 hour session / ½ day session / full day

Full day may include 1 long session or 2 workshops on the same day.

Repeat sessions of an individual workshop will be charged at a reduced rate.
